

Annual

BULL SALE

Monday, April 6, 2020 - 12:00 Noon

Faith Livestock - Faith, SD

Selling

34 Yearling Registered ANGUS BULLS

19 Yearling Registered 1-A RED ANGUS BULLS

Welcome to our annual bull sale. We truly appreciate your support in our program, and we look forward to seeing you on sale day.

We are very proud of the set of bulls we have to offer. The weather forced us to wean our calves about a month later than we'd like to, which we know is also the case with many of you. Since weaning, the bulls have performed great in their bull development. We took the top half of our bull crop for this year's sale. As we look through the pen, we can say with certainty that any bull you see at the sale is a bull we would be glad to infuse back into our own herd.

The bull nutrition was done by Jack Sieban of J&R Feeds. We fed the bulls using a high-roughage ration, much as we did last year. Jack does a great job helping us get the bulls ready for sale day, and we much appreciate the work he does for us!

Our goals for both our bulls and our cows hasn't changed. We continually strive toward consistency in our herd. We want eye-appealing, structurally-sound cattle that produce a quality calf every year. We pay attention to the numbers, but we are not looking to blow any of the numbers through the roof. While we realize that data is important, we also know that the numbers are only part of the equation, and they only apply, in part, to real-world ranching. We also continually monitor the docility of our herd. We love our cattle, and ranching is truly a family affair for us. We want our kids to have the opportunity to enjoy our cows as much as we do. We wish that same joy for your family.

We are happy to again have 6 lots of Red Angus bulls from Cal & Tracy Swanson of S Bar U Red Angus. We bought our first Red Angus heifers from Cal, and as you can see, his bulls compliment ours well. His bulls are April and May calves, and they were weaned at the end of November. We brought the bulls to our ranch on December 1st, where they were developed with our bulls all winter and through sale day. We value Cal's experience in the Red Angus breed as he's raised registered Red Angus for over 30 years.

Thank you again for your interest in our program. We invite you to stop at the ranch anytime to view the bulls, see our cows, and see our herd bulls. As always, we look forward to earning your business, and we hope to see you on sale day!

Annual **BULL SALE**

Monday, April 6, 2020 @ 12:00 MT

Faith Livestock Auction, Faith, SD

AUCTIONEER

Dace Harper.....(605) 515-1535

SALE CONSULTANTS

Jade Harper.....(605) 515-0337

Dennis Ginkens.....(406) 670-9839

INTERNET VIEWING

The sale will be broadcast via www.cattleusa.com. Click on "Live Auctions" on sale day to view the sale. If you plan to bid via the internet, register **one week** in advance to make sure you are approved to bid at the sale. If you have trouble bidding online, we encourage you to contact either of the sale consultants or Faith Livestock to place your bid with them.

BULL VIDEOS

Bull videos are available at www.garrigancattle.com. Scrotal and pelvic measurements will be available on sale day.

TERMS & CONDITIONS

The terms of the sale are cash or check. Registration certificates will be transferred to the new owner(s) once payment is made. **BULLS WILL SELL IN CATALOG ORDER.**

The sale will follow the suggested sale terms and conditions of the American Angus Association.

SALE DAY ANNOUNCEMENTS

All announcements from the block on sale day will take precedence over the information obtained in this catalog.

BREEDING GUARANTEE

All bulls are guaranteed 100% for soundness and fertility at delivery. If a bull is injured or dies during the first breeding season, a replacement will be supplied, if available. We will do our best to accommodate your individual situation.

SALE LOCATION

Faith Livestock Commission Co.
127 N. 5th Ave. W.
Faith, SD 57626

SALE DAY TELEPHONE

Faith Livestock.....(605) 967-2200

Justin Garrigan.....(605) 280-9220

Riley Garrigan.....(605) 280-9722

HERD HEALTH

Bulls have been on a shot protocol recommended by Dr. Tammy Winger of Faith Veterinary Service.

Birth: Alpha CD, Inforce 3

Branding: Inforce 3, One Shot BVD

Preconditioning: Ultrabac 7 with Somnus, Bovishield Gold 1 Shot

Post-Weaning: Inforce 3, Autogenous, Pulmaguard PHM-1, Dectomax Injectable

Fertility Testing: Fusogard (with booster 3 weeks later)

FERTILITY TESTING

All bulls on today's sale have passed their fertility examination as performed by Dr. Rhett Scoggins; therefore, they will be ready to take home on sale day if you choose.

FEEDING & DELIVERY

A \$50 credit will be given for each bull taken home on sale day. GLC offers free delivery within 300 miles. GLC will do all they can to accommodate any further distances. GLC will start bull delivery immediately after the sale. Talk to Justin or Riley if alternate arrangements need to be made with any bulls you purchase.

SEMEN INTERESTS

GLC plans to keep 1/3 semen interest in all bulls sold at today's sale.

In the market for bred heifers?

At Garrigan Land & Cattle, we sell a package of home-raised, home-developed, and home-bred commercial Angus heifers at Faith Livestock each winter. These heifers come straight from our own cow herd and are backed by our own genetics.

Stop by the ranch anytime if you are in the market for bred heifers, and we'd be glad to show you what we have to offer. We typically AI our heifers with a due date of March 1st for one day, and then they are cleaned-up with our bulls for 45 days, with a due date beginning March 15th. They are split into short calving intervals.

Visit with Justin or Riley to learn more.

YOU'VE DONE THE WORK.

Get paid for it.

You've invested in good genetics.
You've kept all the records.

AngusLinkSM combines USDA Process Verified Programs with a Genetic Merit Scorecard that gives buyers confidence in your calves. From age and source verification to cattle care and handling, you choose which programs make the most sense for you.

Group Age & Source • Angus-Sired Genetics
Non-Hormone Treated Cattle • NeverEver³
Cattle Care & Handling • Calf Management •
*Genetic Merit ScorecardSM

*Optional, not part of the PVP claims

Easy and affordable, our customer service representatives walk you through the process.

Registered Angus Bull Offering

You are truly seeing our "best-of-the-best" with these bulls. We started out with 60 Angus bull calves, and through the course of our breeding bull development program, we are now down to 34 lots of the very best bulls we have to offer for the sale. We feel that this offering has something for everyone. We have some great heifer bull options along with some growthier bulls suitable for cows. We have some new sire groups along with some familiar ones from previous sales.

Here is a stand-out Remedy son that comes from a young cow who's raised two bull calves at a 103 weaning ratio. As you can see, he's at the top in all performance areas. Remedy is also known for his maternal merit, so this bull will produce you some wonderful replacement heifers. His photo is impressive, and he's just as impressive in person!

Typically, we wouldn't put the one of the youngest calves in the sale at the beginning of the sale order. However, this bull has definitely earned his spot. We didn't pay much attention to him at birth because he was so young; however, he rose to the top in a hurry. In the pasture last summer, he was mistaken for AI'd calves, and his growth and impressiveness hasn't changed a bit. He has the highest adjusted weaning weight in the sale. Also, he is one of the biggest bulls in the sale, despite being an April calf. He will grow you steer calves, and his mother is a producer (WR 5 @ 104), so keep the heifers!

MADELYN FEEDING THE ORIGINAL "DOROTHY."

What we love the most about this Foundation son is his maternal side. His dam is a young cow with 2 bulls calves @ BR 97, WR @ 107, and YR 103. The Dorothy cow line stands the test of time. The original "Dorothy" is 17 years old and is living in the assisted living unit at our ranch. Our kids love to feed her com, pet her, scratch her, and ride her. She is a staple at our ranch in just the same way we hope this bull can be a staple at yours.

This April bom Chisum son has a moderate frame and is very tight through the neck and sheath area. He is an attractive young bull with a bright future ahead.

Quentin

- ★ 6 years old
- ★ Loves kindergarten
- ★ Favorite cow: "Tradition"
- ★ Interests: wrestling, working with dad, & sledding

Karsin

- ★ 4 years old
- ★ Loves preschool
- ★ Favorite cow: "Patrition" (aka "Tradition")
- ★ Interests: going to school & Sarah's, & sledding

Registered 1-A Red Angus Bull Offering

This group of bulls is full of herd improvers. These bulls were also strictly culled, so you are seeing the top half of what we started with at weaning time. Lots 48-53 are from S Bar U Red Angus. These bulls are April & May calves, and once they were weaned, they were developed with our bulls. Cal also sells bulls by private treaty. He has a nice selection of bulls available at his ranch in Hamill, SD. Give him a call at (605) 842-3876 if you'd like to learn more about his program.

We've been excited about this bull since before he was born. We knew that this could be a special calf, and we were not disappointed. His dam is a functional, easy-keeping, and very attractive cow who gets it done every year. If you are looking to keep females, this bull will give you some amazing, broody replacement heifers. This is a $\frac{3}{4}$ brother to LOT 39.

RILEY WORKING LOT 36 AS A BABY CALF

This Domain son doesn't need much introduction. Not only is his sire one of the most popular bulls in the breed, he's also backed by our favorite cow line. Madelyn has had her eye on this bull, which she named "Kion," since he was born, and his maternal grand dam, Quentin & Karsin's favorite "Tradition" cow, is the kids' feeding and scratching buddy. He has the potential and personality to stick around in a herd for a long time!

This bull has been a stand-out since birth. He comes from a very moderate-frame, high calving-ease cow. We kept wondering when he'd quit growing, but he's still impressive today. He also posts impressive carcass measurements. He's a bull that we feel checks all the boxes and could be a valuable asset in any herd.

We bought this bull from the Thomas Ranch to use as a clean-up bull for our registered cows and heifers. We like his total outcross pedigree, which we recognize will also be an outcross in many operations. His calves turned out very well!

Bull Selection – Simplified.

Red Angus stakeholders have enjoyed the capability of selecting bulls based on economically relevant traits (ERTs), such as Heifer Pregnancy or Stayability, that truly impact their operations profitability. While these ERTs allow for efficient selection decisions, the growing number of ERTs and EPDs has resulted in confusion as producers attempt to estimate a sire's overall impact. In response, RAAA has developed the HerdBuilder and GridMaster indices, which answer the question:

"What impact will each potential sire have on my operation's profitability?"

While the process of calculating an index is very complex, the resulting selection tool is very simple to implement.

HerdBuilder and GridMaster are expressed as differences in profitability per exposure.

Here is a bull that Cal bought from Sandbur Ridge Red Angus. He's a cherry red, sure-shot calving ease bull with a stretchy build. His calves also maintain very high calving ease and were above average at weaning.

HERDBUILDER

Producers selecting bulls to develop profitable replacement females and maximize the value of non-replacement marketed progeny should incorporate the HerdBuilder Index into their selection decisions.

The HerdBuilder Index is built using the following scenario:

- Red Angus bulls mated to cows and heifers
- Replacement heifers retained from within the herd
- All remaining progeny sold on a quality-based carcass grid

Given that replacement heifers are retained, significant influence is placed on the obvious maternal ERTs of Stayability, Heifer Pregnancy and Calving Ease. Additionally, with all remaining progeny sold on a quality-based carcass grid, Marbling, Yield Grade and growth EPDs also impact the HerdBuilder Index.

GRIDMASTER

Use the GridMaster Index if your operation's primary goal is maximizing profitability of feeders in the feedyard and on the rail.

The GridMaster Index is built using the following scenario:

- Red Angus bulls mated to cows
- All progeny sold on a quality-based carcass grid

Marbling, Yield Grade and growth EPDs are the traits of primary importance in the GridMaster Index.

It's a wonderful life on the farm!
