Welcome!

On behalf of my wife and myself, along with all the consignors and their respective families, I would like to welcome you to the Annual Treasure Bull Test Sale. We thank you for your continued support and interest in the program and sale.

This is the most rancher friendly set of bulls Treasure Bull Test has ever offered for sale. I challenge you find the depth that this sale offers anywhere in America. We started with 175 bulls from 31 different consignors which would represent the top half to quarter of their individual programs. We then put the yearlings through a ruthless and competitive test narrowing them down to 115 outstanding bulls, representing the top 70%. The MSU coming two year bulls came to us later than normal and were developed properly for heavy service, they would be as good of a set of bulls MSU has ever offered. The depth of quality from Breed Leading Sires will be unparalleled anywhere. From phenotype to genotype to real world performance the bulls have the ability to enhance any program. This is...

The Cowboy's and Cowgirl's Performance Bull Test.

Please feel free and I strongly suggest calling the consignors on their consignments. They are all excited about their bulls and I know they would love to visit and provide any more information you might need. This is a deep offering of calving ease, performance tested Black Angus Bulls that the consignors are extremely proud of!

Finally, I would like to thank Matt, Rose and the entire family and crew at Muddy Creek Feedyard. They did an outstanding job with the bulls this year. We feel they are in perfect condition to go on with for immediate service. Dr Craig Moore with East Slope Vet Clinic for everything they do for us at the feedyards and yards.

The sale will be carried live on Northern Livestock Video Auction. Also feel free to preview them at www.northernlivestockvideo.com.

Please join us on Monday, April 20th at 4 PM, for "Happy Hour Bull Preview". Plenty of refreshments, snacks, and fellowship among ranchers and TBT consignors to be had while previewing the bulls.

We will see you at the sale on Tuesday, April 21st. You will hugely appreciate this set of "Cowboy Kind" Angus Bulls!

Another heifer bull prospect. Full brother we used as a natural service bull and left great daughters and nice looking bulls. He now works for a good commercial producer. Out of a 14 year-old cow that is still producing calves for us. Has great feet and udder and continues to breed back for us. Dam is a balance of low birth weight, production, and longevity. Dam birth ratio 12@97, weaning ratio 12@105, calving interval of 12@362.

Flush brother to lot 105 out of the \$50,000 donor cow I purchased in the Coleman Female sale. She is an extremely functional cow with lots of dimension in a moderate frame. She carries a great udder with tremendous feet. Her first 2 calves averaged \$32,500 with a heifer calf selling to Lindskovs. When you combine maternal power and growth this bull rings the bell. High management EPDs and top 10% \$M.

He is out of the 9606 donor cow who averaged \$32,500 on her first 2 calves and sired by a 2025 angus tour favorite. Don't miss this guy. The more you study him the more you like him.
