# Dukart Angus Ranch

#### Greetings!

We would like to take this opportunity to say THANK YOU to all of our past and future customers for supporting in our operation and believing in the work that we do! We hope that you will find the offering of these genetics to fit the needs of your operation and that their progeny will continue to make your business and the rest of the cattle industry profitable.

Our primary focus has been and will always be to produce a functionally sound female that fits our environment. She needs to do her job with limited feed inputs, correct feet, good udders, and have fertility with a good disposition. Again, this year's bulls were developed on a roughage ration through the winter and turned onto grass in early May and have been roaming the hills and developing into breeding bulls.

Sale opens on December 13 and closes on December 15, 2023 at 2pm MT. We will be using
