

**REAL BULLS
FOR THE
REAL RANCHER**

**32nd Annual
Online Bull Sale**

**April 16-18, 2026
www.billpelton.com**

Dear Friends,

Welcome to the Feiring Angus Ranch 32nd Annual bull & Female Sale. We would like to extend our heartfelt gratitude to our friends and valued customers for your ongoing support of our program. We measure our success by how well our genetics help our customers succeed. For more than `70 years, our family has been committed to providing Angus seedstock that enhances the profitability of commercial cattlemen/women. This long-standing dedication is at the core of everything we do, as we strive to build lasting relationships and deliver results to those who depend on us.

Our breeding strategy focuses on practical and performance-based traits that enhance longevity, soundness, and over efficiency. We have carefully selected Foundation Angus genetics that have consistently delivered profitability to the beef industry and have stood the test of time. We use a traditional seed-stock operation model. On December 3, 2025, both the bulls and heifers underwent weaning. Bulls started on Bull Challenger feed via self-feeders with grass hay. Around mid March, their diet changes to hand-fed Wheat Midds pellets. Heifers are fed free choice barley hay, grass hay, and a few lbs. of Wheat Midds pellets by bucket. To get them used to being handed, they are called out of pen and chased by me back into the pen daily.

We invite you to view our operation and inspect the cattle at your convenience. If you have concerns about the online sale format, please contact us— we are happy to assist in any way possible.

GOD BLESS!

Doug, Ceylon Feiring & Family

Inspection of Cattle

Sale cattle are available for inspection at Feiring Angus. Please call ahead of time to set up a viewing.

Terms & Conditions

All cattle must be paid for in full before taking possession by buyer, or if other arranged payments have been agreed on by both parties.

Health

Health and brand papers will be furnished. All cattle have been vaccinated for IBR, P13, BVD, Pasturella Haemophilus Somnus, and poured with Vetrimec. All females have been bangs vaccinated for Brucellosis and will be vaccinated with PregGaurd FP 10 before the sale. All bulls have been vaccinated with Fusogaurd so their ready to work for you.

Announcements

Announcements before the sale will take precedence over information in this catalog.

Delivery

\$50.00 off per bull picked up the following week of the sale. Or free delivery on bull(s) within a 200 miles radius of the ranch. Heifers will be at the expense of the buyer. Prompt pickup is appreciated.

Sale Videos

Videos will be available for viewing at www.billpelton.com under Feiring Angus Sale Info.

Sale Day Info

Feeding Arrangements

We can board your bull(s) until you need them. There will be a \$2.50 per head/per day charge with this service. You will be responsible for picking up the bull(s) at Feiring's Ranch, unless prior arrangements have been made.

Our Guarantee

To our knowledge, these bulls are fertile and have passed a breeding soundness exam and are guaranteed for the first breeding season (60 days). Which begins when you turn our bull(s). The semen test conducted by a licensed veterinarian consisted of both an internal and external exam. Scores were derived from scrotal measurement and microscope examination to determine the motility and morphology of the sperm. If a bull fails to settle cows or heifers, assuming he is in good condition and not injured, we will provide you with a satisfactory replacement if available. If a replacement is not available, we will issue you a credit equal to your purchase price minus the salvage value that may be used towards the purchase of an animal for sale through our annual production sale or private treaty. We must be notified immediately and before selling the infertile bull in question. We also reserve the right to a second opinion from a veterinarian of our choice, and 60 days to determine in the bull is infertile. This guarantee is to ensure the bull's fertility only.

Retaining Interest

Feiring Angus Ranch is retaining one-third revenue sharing semen interest in every bull selling in this sale. Full possession and full salvage value sells on all bulls. Unless stated otherwise. We also reserve the right to collect semen on any bull selling in this sale, at your convenience and our expense, to be used in our herd only.

Bull Development

Bulls were weaned on 12/3/2025 on free-choice grass hay & mineral. Place on Bull Challenger pellets in a creep feeder after 2 weeks weaned. Mid-March self-feeders pulled out & start feeding Wheat-Midds pellets in bunks. Developed with soundness, fertility, & longevity in mind. 3-year foot guarantee.

Who and What is AgBoost?

AgBoost is an independent genetic data company that processes your DNA through Igenity, which is a non-breed specific third-party DNA lab. The data comes back to AgBoost in a 16 trait genetic profile. These 16 traits are the core of what most cattlemen need to help make a more targeted selection for their sire needs. From these 16 traits, there are four target areas that you can see more specifically how the individual performed compared to others. Those areas are Production, Maternal. Performance, and Carcass Traits.

The Choice

As the industry leans more towards being data-driven, we were looking for a company that would give us a non-biased DNA evaluation. I was looking around for another breeder that was doing what we were trying to accomplish. That is when I found Craig Guffey of Sweaingin Angus by Lawerance, KS. Why did we choose AgBoost over Angus Genomics? Quite simple, we were looking for a non-biased 3rd party evaluation of what our cattle are. Another feature is the simplicity at which data is presented. It is easy for anyone to understand and use for their selection needs.

Bull Sale Info

AgBoost identifies 16 traits and applies a score from 1-10, with 1 being the lowest and 10 being the highest score, against all breeds today. A higher score is generally better unless you want less BW, FAT and RFI, then you would want a lower score. The DNA test is done at Igenity (Neogen Geenseek Operations) Lab, and AgBoost is the 3rd party source. We are excited and will continue to use AgBoost. I will still provide actual data that we have taken from these bulls. This is calculated off the true genetic value based on all breeds, not a subset of Angus. The most important thing to understand is we have kept all traits balanced to allow performance, efficiency, and long-term maternal value.

50 Commercial Black Angus Heifers

- Heifers are weight and listed in lots of 5 head in each group, the heaviest heifers would be in the first groups and the lighter heifers will be in the last groups.
- If you would like to buy 20 heifers for example, you would have to buy 4 lots of 5 head to equal 20 head.
- Lots of 5 weights and herd ID numbers will be posted and available prior to the sale.
 - Each heifer has a herd tag number and a freeze brand number that match.
 - Feeding and care arrangements are possibility if needed until turned out.
 - If you have any questions or need more information, please contact Doug Feiring at 702-629-1912.

Heifers were born late April 2025 through June 1, 2025. They are sired by Feiring Ranch Reference Sires listed in this catalog. All have been Bangs vaccinated, PregGaurd vaccinated and have freeze brands. They were weaned 12/1/2025 and have been fed free choice grass/alfalfa hay and barley hay, with protien and mineral supplement.

They are outstanding brood cow prospects!
