

31st Annual Bull Sale

April 17-19, 2025

Online Internet Auction
Hosted by Bill Pelton Livestock

Fertility
The number 1 trait for your cow herd

Doug & Ceylon Feiring
6698 94th Ave. NW Powers Lake, ND
(701) 629-1912
dfeiring6@gmail.com

Dear Friends,

Welcome to the Feiring Angus Ranch 31st Annual Bull and Female Sale. Thank you to our friends and customers for supporting our program! Our success is measured by the success of our customers. For 70 plus years our family has dedicated themselves to providing seed stock that enhances profitability to the commercial cattleman. Our breeding philosophy is rooted in practical performance driven traits that contribute to longevity, soundness and overall efficiency. Our goal is quite simple, "to provide seed stock that works in a true environment." The Angus cow is the backbone of the beef industry. We have stacked generations of foundation Angus that have stood the test of time having returned the most profit to the beef industry. We run our operation very differently than most seed stock operations: calving on the range in late April & May, running our cows out all year long and supplementing only with hay in the winter, and weaning the first part of December. The bull calves were fed hay until February and then put on a self-feeder of Bull Challenger until April. They will then be hand fed a few pounds of feed to keep them growing (not fattened). It is not a race to see who can get their bulls the fattest. It only ruins the bulls for life. Longevity, structural soundness, and over performance are the fundamentals to a successful breeding bull. The 2-year-old bulls were wintered with our herd bulls and fed only hay. They are green machines.

The replacement heifers were weaned in December, fed hay, a protein supplement, & mineral. They are cycling and in excellent shape to become cows to build a cow herd with.

We have used generations of proven Angus genetics from Ben Lawson, OCC, N Bar, Rito, Wye. As well as dabbed a little old Bardolene, old time Scotland and New Zealand genetics to our herd over the years. When building a true consistent genetic herd of cattle, it takes a lifetime of proven genetics from a similar environment, management, focus, and strict culling.

We would like to show you our operation. The cattle are available for your inspection at your convenience. We look forward to seeing and hearing from you! If you are uncomfortable with the Online sale format, please contact us and we will be happy to help you anyway we can.

God Bless!

Doug, Ceylon Feiring and Family

Inspection of Cattle

Sale cattle are available for inspection at Feiring
Angus. Please call ahead of time to set up a viewing.

Terms & Conditions

All cattle must be paid for in full before taking
possession by buyer, or if other arranged payments
have been agreed on by both parties.

Health

Health and brand papers will be furnished. All cattle
have been vaccinated for IBR, Pi3, BVD, Pasturella
Haemophilus Somnus, and poured with Vetrimec. All
females have been bangs vaccinated for Brucellosis
and will be vaccinated with PregGaurd FP 10 before
the sale. All bulls have been vaccinated with Fusogard
(footrot
vaccine) so their ready to work for you.

Announcements

Announcements before the sale will take precedence
over information in this catalog.

Delivery

\$50.00 off per bull picked up the following week of
the sale. Or free delivery on bull(s) within a 200 mile
radius. Heifers will be at the expense of the buyer.
Prompt pickup is appreciated.

Liability

Everyone coming to Feiring's does so at his or her
own risk. Neither party assumes any liability, legal
responsibility for any accidents, or for the behavior of
the animals.

Feeding Arrangements

We can board your bull(s) until you need them. There
will be a \$2.50 per head/per day charge with this
service. You will be responsible for picking up the
bull(s) at Feiring's ranch, unless prior arrangements
have been made.

Our Guarantee

To our knowledge, these bulls are fertile and
have passed a breeding soundness exam and are
guaranteed for the first breeding season (60 days).
Which begins when you turn out the bull(s). The
semen test conducted by a licensed veterinarian
consisted of both an internal and external exam.
Scores were derived from scrotal measurement and
microscope examination to determine the motility and
morphology of the sperm. If a bull fails to settle cows
or heifers, assuming he is in good condition and
not injured, we will provide you with a satisfactory
replacement if available. If a replacement is not
available, we will issue you credit equal to your
purchase price minus the salvage value that may
be used towards the purchase of an animal for sale
through our annual production sale or private treaty.
We must be notified immediately and before selling
the infertile bull in question. We also reserve the right
to a second opinion from a veterinarian of our choice,
and 60 days to determine if the bull is infertile. This
guarantee is to ensure the bull's fertility only.

Retaining Interest

Feiring Angus Ranch is retaining one-third revenue
sharing semen interest in every bull selling in this
sale. Full possession and full salvage value sells on
all bulls. Unless stated otherwise. We also reserve the
right to collect semen on any bull selling in this sale, at
your convenience and our expense, to be used in our
herd only.

Sale Videos

Videos will be available for viewing at
www.billpelton.com under Feiring Angus Sale Info.

Bull Development

Bulls were weaned on 12/1/2024 on free choice grass/
alfalfa hay and mineral. Added Bly hay after 3 weeks
weaned. Bull Challenger in creep feeder was started
1/27/25 and bled Bly hay. Developed with soundness,
fertility & longevity in mind. 3 year foot guarantee.

WHO AND WHAT IS AgBOOST

AgBoost is an independent genetic data company that processes your DNA through Igenity, which is a non-breed specific third-party DNA lab. The data comes back to AgBoost in a 16 trait genetic profile. These 16 traits are the core of what most cattlemen need to help make a more targeted selection for their sire needs. From these 16 traits, there are four target areas that you can see more specifically how the individual performed compared to others. Those areas are Production, Maternal, Performance, and Carcass Traits.

CHOICE

As the industry leans more towards being data-driven, we were looking for a company that would give us a non-biased DNA evaluation. I was looking around for another breeder that was doing what we were trying to accomplish. That is when I found Craig Guffey of Swearingin Angus by Lawrence, KS. Why did we choose AG Boost over Angus Genomics? Quite simply we were looking for a non-biased 3rd party evaluation of what our cattle are. Another feature is the simplicity at which data is presented. It is easy for anyone to understand and use for their selection needs.

BULL SALE INFO

AgBoost identifies 16 traits and applies a score from 1-10, with 1 being the lowest and 10 being the highest score, against all breeds today. A higher score is generally better, unless you want less BW, FAT and RFI, then you would want a lower score. The DNA test is done at IGENITY (Neogen Geenseek Operations) Lab, and AgBoost is the 3rd party source. We are excited and will continue to use AgBoost. I will still provide actual data that we have taken from these bulls. This is calculated off the true genetic value based on all breeds, not a subset of Angus. The most important thing to understand is we have kept all traits balanced to allow performance, efficiency, and long-term maternal value.

In Loving Memory

Bernice M. Feiring

September 26, 1936 - February 19, 2025

GOD looked around the garden,
And found an empty space.

He looked down upon the earth,
And saw your tired face. He put

His arms around you
And lifted you to rest.

God's garden must be beautiful
For He only takes the BEST.
