INSPECTION OF CATTLE

The cattle will be available for inspection at the sale site on Thursday. Prior to this, visitors are welcome anytime at the Feiring Ranch or Sheldon feedlot where Ash Coulee Ranch bulls are being fed.

ABSENTEE BIDS

Anyone who cannot attend the sale may place phone or mail bids to the auctioneer, one of the ring men, Doug Feiring, or Scott Davis. Bids will be handled as if you are present. Sight Unseen Guarantee.

TERMS AND CONDITIONS

We will conduct this sale under the suggested sale terms and conditions adopted by the American Angus Association.

HEALTH

Health and brand papers will be furnished. All cattle have been for IBR, Pi3, BVD, Pasturella, Haemophilus Somnus and poured with Vettricmec. All females have been banded vaccinated for brucellosis and will be vaccinated with PreGuard 10 FP before the sale. All bulls have been vaccinated with PreGuard 10 FP and Fusogard (footrot vaccine) so their ready to work for you.

EPDS AND FINAL PERFORMANCE DATA

Current EPDs are used whenever possible. Please note that EPDs may change from the time the catalog is printed until the registration papers are transferred. Performance information will be available on and before sale day.

ULTRASOUND CARCASS DATA

JJ Hovde, AAACUP certified technician, has ultrasounded all bulls for marbling, rib eye, back and rump fat. Results will be available on website or sale day.

Catalog designed by

Emily Brinkman, owner/designer
419.967.0141 | www.generation6.co

ANNOUNCEMENTS

Announcements from the auction block will take precedence over information in the catalog.

INSURANCE

Insurance will be available through Bill Pelton.

DELIVERY

\$50.00 off per bull/picked up sale day. Or Free delivery on bull(s) within 250 miles radius. After 250 miles, we meet you or drop off at a central location point (sale barn, vet clinic or?) that has been agreed on to be a central location point by all parties.

FEEDING ARRANGEMENTS

We can board you bull(s) till you need them. Feiring bull(s) will remain at Feiring Angus Ranch. Ash Coulee bull(s) will be taking back to Sheldon Feedlot and cared for them there. There will be a \$2.00 per head/per day charge with this service. And you will be responsible for picking up the bull(s) at either place, unless prior arrangements have been made.

OUR GUARANTEE

To our knowledge, these bulls are fertile and have passed a breeding soundness exam and are guaranteed for the first breeding season (60 days) which begins when you turn out the bull(s). The semen test conducted by a licensed veterinarian consisted of both an internal and external exam. Scores were derived from scrotal measurement and microscope examinations to determine the motility and morphology of the sperm.

If a bull fails to settle cows or heifers, assuming he is in good condition and not injured, we will provide you with a satisfactory replacement if available. If a replacement is not available, we will issue you credit equal to your purchase price minus the salvage value that may be used towards the purchase of any animal for sale through our annual production sale or private treaty. We must be notified immediately and before selling the infertile bull in question. We also reserve the right to a second opinion from a veterinarian of our choice and 60 days to determine if the bull is infertile. This guarantee is to ensure the bull's fertility only.

LIABILITY

Everyone attending this bull sale does so at his or her own risk. Neither Feiring Angus nor Ash Coulee Ranch assumes liability, legal responsibility for any accidents, or for the behavior of animals.

RETAINING INTEREST

Feiring Angus Ranch and Ash Coulee Ranch is retaining one-third revenue sharing semen interest in every bull selling in this sale. Full possession and full salvage value sells on all bulls. Unless stated otherwise from the Auction Block. We also reserve the right to collect semen on any bull selling in this sale, at your convenience and our expense, to be used in our herds only.

Welcome Friends & Cattlemen,

We would like to invite you to our 25th Annual Sale. Thank-you to all past & future customers, inquires, & for choosing us for your seed-stock needs. Also thank-you to all who help us get ready and help with the sale. We've been truly blessed! You are always welcome to stop by the ranch & look through our cattle and operation.

I know how busy this time of the year it gets! We've videoed this year's offerings again, and you can view them at billpelton.com or stop by and look over the cattle before the sale. The cattle will not run through the sales ring. We will have a video playing of each lot when they are selling. It's just so much easier on the cattle and takes a lot less sale day help. Cattle are still penned in groups, making it easier to go through the cattle and make your selections. Bill will have his conference phone set up so you can call in, listen, and bid that way. If you can't make it sale day, please call any of us, the sale staff, we will do our best to accommodate you. We offer a 100% sight on seen guarantee, a 30 day disposition guarantee, a 3 year foot guarantee, & first year breeding fertility. We ask that you contact us if you have any problems with them and before culling any animal. We want a happy satisfied customer.

We changed the feed (grain) this year to CHS Hi-En Bull Challenger pellets. We fed it at a modest .0075% of body weight in bunks once a day. They had free choice hay & haylage in bale feeders. I do not believe in pushing, fattening bulls to impress you with ADG, & Yearling Weights. My number 1 goal is to sell you a fertile, sound bull that will get the most cows settled in a short breeding program & last for many years. Some think you can feed bulls like feedlot cattle, I beg to differ. Even I understand they have a growing ration & finishing (hot) ration. Our bulls are not fed a "peddle to the metal" ration that so many are using to impress you with **growth** in the seed stock business!

We select genetics that work on grass & to build a better cow herd. These genetics will perform on grass and in the feedlot where the corn fed genetics can't perform on grass without supplements! I do not understand why so many cattlemen are worried about feedlot growth when they sell their calves at weaning and are breeding more terminal traits into their cow herd. The cow-calf producers have been led to believe that they must please the feedlot industry in order to get their calves sold even if their operation are not profitable. The two largest annual expenses for a cow calf operation are feed costs and replacement costs. Maintenance feed cost of the cow herd and replacement cost typically account for over 75% of the total production cost. Therefore selecting genetics that require less feed and stay in the herd longer are economically vital to increasing profitability. When you breed cattle that thrive and flesh on grass, they will do even better when finished on grain. What will not work is a set of cows that require more energy than your grass or environment will provide.

We DNA tested our herd bulls and the bulls selling this year through a third party AgBoost. They test for 16 traits. I've just received this info back and have not had enough time to sort it all out. I plan to have a supplement sheet explaining it and charting it in case you would like to use it to sort the bulls. This will be available on or before the sale. If interested I can email you a copy.

If we can be of any assistance to you please let us know. Thank-you for taking time to view the catalog. The pictures of the bulls were not edited in anyway and we're taking by me. Some bulls will be more impressive then their picture! We look forward to seeing you on April 20th.

THANK-YOU & GOD BLESS!

Doug & Ceylon Feiring Family

COMMERCIAL HEIFERS

General information on the commercial heifer offering:

- Heifers are penned by size and type.
- Heifers tag color indicates consignor, 1 through how many consigned.
- Heifers will be penned and displayed in uniform lots. Heifers will also sell with videos on TV's and not brought through the ring on sale day.
- Each pen will have consecutive numbers (tags) 1-20, 20-40, etc.

- Winning bidder has choice of 5 head or more, if they take 10 head they get the lowest numbers in pen (1-10), and then the bidding starts again on the remaining pen, or they can take the whole pen and have the option to take remaining heifers (pen or pens) by that consignor at their bid price.
- If you have questions please contact Doug Feiring, 701-629-1912

60 COMMERCIAL HEIFERS

15 RED ANGUS, 40 BLACK HEIFERS & 5 BLACK BALDIES
Feiring Angus Ranch

- Replacement heifers selected from our registered and commercial cowherds.
- Born April and May 2018
- Sired by Feiring reference sires and Feiring raised bulls.
- Bangs vaccinated and freeze branded
- Outstanding brood cow prospects. Optimum size and very uniform in length, volume and structural correctness.
- Weaned on grass hay until mid-January, then started on feed, 4 lbs. pellet per/day and free choice grass hay and haylage.

OUR BULL GUARANTEE

At Feiring Angus Ranch we have always been prepared to guarantee our bulls. The guarantee is structured to cover fertility and soundness. All bulls selling have passed a breeding soundness exam by a licensed veterinarian and screened for soundness.

We will guarantee bulls from the date of purchase against loss of fertility or soundness not caused by physical damage. This is a guarantee to protect the buyer against any problems with bad feed, hooves, structural problems and/or the inability to settle a cow. When breeding for 3 years pro-rated in the form of a credit in the next available Feiring Angus Ranch sale, or if we have a satisfactory replacement on hand for a trade or a partial credit on a different bull. This guarantee does not cover injuries such as stifle, broken bones, broken penis, bruises from fighting, foot rot, frozen or bruised testicles, poor or over condition, unsound management practices, or disease. The guarantee only covers

the value of the bull, not the loss of production. A veterinary certificate is required to warrant this guarantee and we reserve the right of a second opinion. Any associated costs are that of the purchaser. Sound management practices are expected (fertility testing annually and checks that bulls are working while mating are mandatory).

Purchaser can extend their protection further by insuring their bull(s) for transit and full mortality risk. Being death by accident, disease, and including the peril loss of use by accident. This coverage will be at the buyer's cost.

Your cost of the bull, minus the salvage value will be covered by a 3 year pro-rate guarantee in the form of a credit in the next available Feiring Angus Ranch Bull Sale, or if we have a satisfactory replacement on hand for a trade or a partial credit on a different bull. This means that if the bull breaks down:

- During the first mating, 100% of the credit applies
- After the first or during the second mating, 67% of the credit applies
- After the second or during the third mating, 33% of the credit applies
- After the third, one of the credit applies

THANK YOU FOR ATTENDING OUR 25TH ANNUAL SALE!

ASH COULEE RANCH

Welcome to the Feiring Angus and Ash Coulee Ranch Production Sale. We value the interest you have shown in our programs and are excited to offer another strong set of trouble free bulls and heifers. These are cattle produced by some of the best genetics available designed to give a balance of economical traits so needed in this part of the country.

The bull sale season is an exciting time and if your like me you get Bull Fever. You have to find those fresh genetics that are going to be profitable enough to keep you in the cattle business. You may need a terminal bull that offers a ton of pay weight and carcass quality or bulls that sire great momma cows to build a herd. Thankfully there are genetics available out there that can meet those needs. How do you pick those bulls? By the Numbers? By popularity? By visual appearance? By breeder reputation? By How the cow herd is managed? By bloodlines? By value for your dollar? I think most people use a number of these criteria and more when selecting a bull. Ash Coulee Ranch would be honored to earn your interest in our program. What do we offer? We offer something different from main stream Angus genetics. A I genetics did not work that well for us. We bred to what ever was popular at the time and we sure thought we had something and the A I cattle got every advantage in our herd because we thought they were special and guess what? As time went on our own herd bulls sired daughters that out produced, out lived, and just did everything better than most our special cows.

Poor choice of A I bulls? Maybe. Good choice of Herd Bulls? maybe that didn't hurt. Long story short, it seemed that our good cattle had one thing alike. Good mothers. What did I know about the dams of the A I bulls. Mostly nothing. And it showed. Every cattleman has at least a hand full of great cows that are excelling in their environment. How do you get more of them? Used their sons. Very simple equation in this world of an EPD for every thing. If main steam is not working for you any more please give the Ash Coulee Ranch program a look. **Or better yet give me a call. Nothing better than a cattle chat. 701-641-8705.**

We would like to thank our friends the Feiring's for the hard work they put into this sale and for including us. A special thanks goes out to all interested in our genetics. Your the reason we have been able to live the dream and provide seedstock for over 50 years. Thanks also to the hard working friends and family that make this sale a success.

The Davis Family
